---

## **Workshop 1: (Room: Linden)**

### **Primary Care measures at the sub-region level**

Facilitated by Dr. Richard H. Glazier, ICES and Paul Huras, SE LHIN

Dr. Rick Glazier is a Family Physician and Senior Scientist and Program Lead of Primary Care and Population Health at the Institute for Clinical Evaluative Sciences (ICES). He is a staff family physician at St. Michael's Hospital in Toronto and a Scientist in its Centre for Urban Health Solutions. At the University of Toronto, Dr. Glazier is a Professor in the Department of Family and Community Medicine, the Dalla Lana School of Public Health, and the Institute for Health Policy, Management and Evaluation. He is an international leader in primary care research and he recently served as President of the North American Primary Care Research Group (NAPCRG). He is currently one of 15 College of Reviewers Chairs at the Canadian Institutes of Health Research (CIHR).

Dr. Glazier holds a MD from Western University and he completed his residency in Family Medicine at Queen's University. He received a MPH at Johns Hopkins University and completed his residency in General Preventive Medicine and Public Health at Johns Hopkins University and at the World Health Organization.

His research focuses on evaluating health system transformation, primary care health services delivery models, health of disadvantaged populations, management of chronic conditions, and population-based and geographic methods for improving equity in health.
