### **Robert J. Reid, MD MPH PhD**

- Chief Scientist, Institute for Better Health
- Senior Vice-President, Science, Trillium Health Partners
- Professor (status), Department of Family & Community Medicine, and
- Institute for Health Policy, Management, & Evaluation, University of Toronto
- Professor (part-time), Department of Health Research Methods, Evidence, & Impact, McMaster University

With his passion for health care transformation, Dr. Robert Reid aims to assist THP deliver on the promise of building a new kind of health care for a healthier community through research and innovation.

Dr. Reid received his medical degree from the University of Alberta and completed a Master of Public Health in epidemiology and a doctorate of health policy and management from the Johns Hopkins University. He is internationally recognized for his research developing and testing population-based innovations in primary care delivery, prevention services, and chronic care.

Dr. Reid is best known for his work in developing and evaluating a pioneering patient-centered medical home, which coordinated and streamlined team-based care to improve quality, patient experience and yield cost savings. A fellow of the American College of Preventive Medicine, he has lectured nationally and internationally on the organization, financing and delivery of care – from the Mayo Clinic, Kaiser Permanente, and Harvard to Ottawa, London and Auckland. Dr. Reid has published nearly 140 articles in refereed journals and given over 130 scientific and policy talks.

In addition to his research leadership positions at Trillium Health Partners, Dr. Reid is a professor at the University of Toronto and McMaster University. He also holds appointments as affiliate investigator at Kaiser Permanente Washington Health Research Institute.
